

The HotRot Composting System

OdourFree[™] GUARANTEE

HotRot guarantees that plant designed, installed and operated according to our guidelines will not result in odour problems for your business.

The composting process releases gases that smell. HotRot ensures that these gases are adequately managed and do not reach noses that will be offended by them.

The OdourFree Guarantee is underpinned by:

- *Operating procedures to minimise odour generation*
 - *Containment by design*
 - *Effective odour treatment*
